### SAFE SURFACES and BUILDING MATERIALS

- Non-porous countertops
- Low VOC paint and adhesives
- Touchless accessories
- Hard surface flooring
- Exterior water and pest proof systems
- Sanitation room
- Central vacuum system

### CLEAN WATER

- RO System

# Healthy Home Options

Make your home a healthier place. Upgrade to the latest in healthy home products and technologies.

## PURE AIR

Whole home air purification system with advanced ionization technology, upgraded air filtration and humidity controls add layers of protection to improve indoor air quality. Additional air quality enhancements include ERVs/HRVs to introduce fresh outdoor air and ventilate out odors in your home.

## CLEAN WATER

We offer several options for water quality upgrades to ensure you are drinking the cleanest water possible. We know having clean water is a necessity.

## SAFE SURFACES and BUILDING MATERIALS

We incorporate the best in surfaces and building materials to add to the health of your home. We use low to zero emitting VOC products in flooring, paint, insulation and cabinetry.

## SPECIALIZED DESIGN

Comprehensive sealing materials significantly reduce moisture, ensuring the best protection possible against mold and moisture damage caused by condensation. Enhancements include whole house vacuum systems.

## BEST PRACTICES

Learn how to achieve and maintain a healthy environment by following our best practice advice.

AIR PURIFICATION

AIR QUALITY MONITOR

AIR FILTRATION

HUMIDITY CONTROL

HVAC ENHANCEMENTS

BATHROOM VENTILATION

WATER FILTRATION

NON-POROUS COUNTERTOPS

TOUCHLESS FAUCETS

MOTION SENSOR LIGHT SWITCHES

HARD SURFACE FLOORING

LOW VOC PAINTS

SANITATION ROOM

ZERO ENTRY
